

FOR PRESIDENT,
JAMES A. GARFIELD,
Of Ohio.
FOR VICE PRESIDENT,
CHESTER A. ARTHUR,
Of New York.

THE LEGISLATURE.

The Democratic papers are exultant in the hope that Col. Jas. G. Fair will be their candidate for Senator, claiming that his candidacy will insure the election of a Democratic Legislature. The combination of circumstances which would lead to such a result is not within the range of possibilities, according to the position of parties in this State. There can be nothing more certain in the political history of Nevada than that the next Legislature will have a Republican majority. It is possible to lose the State for Garfield and Arthur, and Beatty and Daggett, and still the Legislature will be Republican. All talk intended to convey any different idea is simply the cheapest kind of nonsense. There are 61 members to be elected. In order that the Democrats should control the Legislature they must elect 37, yet the Republicans need only 26, as with the 12 hold-over Senators the constitutional majority of 38, would be obtained. The usual rule, if any, has been for the Republicans to elect the majority, and it would be a great deal easier, and much more likely, for the Republicans to elect 37 against the Democrats 26, than for the Democrats to elect the 37, and the Republicans the 26. Of the 26 needed by the Republicans in the coming contest the counties of Douglas, Esmeralda, Lyon, Ormsby, Washoe, Eureka and White Pine, will give 23. It will be very strange if in Elko, Humboldt, Lincoln and Nye there are not at least 8 Republicans elected. This allows a majority of 5 to go on, not counting Storey, Churchill and Lander. It is simply impossible for the Democrats to carry the entire ticket in Storey. They have not the material to do it with, and Storey will be certain, we think, for a majority of, if not the entire Republican ticket. The chances are even in Churchill. We concede Lander to the opposition. Viewed from almost any standpoint, it is safe to assert that the Republicans will have a majority of at least 20 on joint ballot in the next Legislature.

ENGLISH OPINION OF AMERICAN AGRICULTURE.—The Report of Clare, Sewell, Read and Albert Pell, sent by the Royal Agriculture Commission to the United States and Canada to inquire into the state of agriculture, is published. They say that while many prevailing conditions are favorable in America in a contest for agricultural supremacy, still drawbacks exist which tell in favor of England. Severe winters suspend agricultural employment, drouths, injurious insects and supply of water endanger crops. Western America possesses a singular advantage for stock-raisers, while the Middle States afford them excellent pasturage, and the Eastern States good markets. The allotment of land and the termination of free ranges in the West will increase the cost of cattle raising, but the increased consumption by the growing population will enhance prices. The success and extension of the growth of blue grass opens fresh prospects for the grazer, and will in time bring the improved turf under the hoof of thoroughbred stock, or at least of highly graded cattle.

General Hancock owns considerable coal and farming property in Missouri, which he has refused to sell or have developed. The property of his mother-in-law is a very beautiful place, eight miles from St. Louis. The General owns much valuable land in Minnesota. He inherited a fortune from his father. His twin brother, who lives at Minneapolis, is in very ill health.

Governor Wiltz, of Louisiana, has recovered his health in the Rocky Mountains. He says that the South wants a solid North, because her prosperity depends upon the North. He adds that General Grant would have been harder to be beaten by Hancock than any other man.

In the great trotting race at Chicago Thursday, between St. Julian, Darby and Hopeful, for a purse of \$2,500, three in-five heats, St. Julian won in three straight heats. Time—2:17½; 2:18½; 2:16½.

Officials returns of the Census Supervisors gives Boston a population of 363,565, an increase of 71,066 in ten years.

YELLOW FEVER OUTLOOK.

There have been a great many occurrences of a phenomenal character this season. Terrible heat and drouth in one portion of the country have been offset by rains and floods in another. We hear of crops drying up, and other crops washed out and destroyed by the deluge. Famine is abroad and pestilence has poised its wings for flight. A year or two ago some astronomers predicted great and malefic changes resulting from a general conjunction of the planets with the sun, citing the events of the fifteenth or sixteenth century in proof, when a similar conjunction was accompanied with terrible earthquakes, ocean storms, snows in torrid regions, and all the horrors of pestilence and starvation.

There has been a sufficient manifestation of the appearance of yellow fever to warn the people that there is danger of a serious visitation. Several cases have been brought by vessels into different ports, and now and then a native case breaks out in some Southern city. Congress instituted a national board of health last year, and it is still in existence, charged with the duty of investigating and warding off yellow fever epidemics, but thus far it has shown itself rather dilatory. During last season the newspapers generally had reports of the breaking out of the disease in different localities twenty-four hours, and sometimes three or four days, before the board had official cognizance of it. This year it is hoped that it will redeem its reputation. In an interview with a newspaper editor a few days ago, Dr. Turner, a member of the board, said there was danger that the scourge would break out in several places along the Mississippi, and mentioned New Orleans as particularly exposed. That city, he said, was in a very filthy condition, and the people seemed unable or unwilling to understand their danger. He predicted that within four weeks the disease would be raging in New Orleans, virulent in energy and epidemic in character. He expected other cities, however, to know it before the board could do so. On account of commercial rivalry, Galveston would be on the watch, and before the click of the telegraph can convey the information to Washington, the Galveston people will have enforced a quarantine against the Crescent City.

Speaking of the condition of Memphis, which has recently undergone some sanitary improvements, Dr. Turner said that the forty miles of new sewerage would accomplish much good. The system of drainage is very complete. There is first, house sewerage, then subsoil sewerage, while an abundance of surface drains take off the surplus water. The quarantine system adopted by the board is commended along the Mississippi Valley, and by the 4th prox. it was expected to be extended the entire length of the river. The doctor expressed fear that the fever might reach Washington, as Baltimore and Norfolk are in a bad sanitary condition, while Washington is also filthy. But the place which is expected to be the starting point and headquarters of the scourge is New Orleans. Quarantining of a most vigorous character will be resorted to in the moment any sign of the disease shows itself in a Southern city, but this should not be the sole reliance. Every city should clean up. With the phenomenal condition of the atmosphere that now exists, it is not safe to presume that yellow fever will this year be confined to its usual Summer limits. Let universal cleanliness prevail; this is the only sure hope in any city south of the northern line of Massachusetts, in warding off Yellow Jack.

Dr. W. F. Carver, of California, "the champion rifle shot of the world," gave an exhibition of his skill at the request of and in the presence of the Emperor of Germany on the 13th and 19th days of June. The Crown Prince and Princess were also present. At the conclusion of the performance the Emperor presented Mr. Carver with a diamond ring, and the Crown Prince gave him a scarf pin set with rubies and diamonds.

The Spanish bull-fighters who are to give a series of entertainments in the large cities of this country have arrived in New York, and are building a sort of amphitheatre on Sixth avenue. They are from Madrid, and have a 'drove of Spanish bulls to exhibit the cruel pastimes of their native land. Such exhibitions should not be licensed nor encouraged.

The Spanish government holds that it has the right to detain or fire upon suspicious vessels within two marine leagues of its shores. The American government does not recognize this claim. The captains of the American schooners recently fired upon say they were more than two leagues off shore.

A fire broke out Thursday forenoon, which destroyed the entire business portion of Gibsonville, Sierra county. Over twenty-five dwellings were burned. Loss over \$50,000.

Garfield and Hancock are both Free and Accepted Masons.

Reduction of Salaries and Fees or Increase of Taxation.

An Elko correspondent of the Enterprise hits the traditional nail on the head, when he writes: One of the most important and grave questions that will present itself for the consideration of the incoming Legislature is whether taxes shall be increased or salaries and fees in office reduced. This question should be thoroughly discussed by the people with a view of making that an issue in the coming election. I cannot see for the life of me any reason why that the sparsely settled sagebrush State of Nevada, with a population perhaps less than 60,000, and with an assessment list containing only 15,000 names, with less than \$35,000,000 of taxable property, should pay twice as much in the way of salaries to her State officers as the great State of Pennsylvania with her eight odd counties and vast agriculture, manufacturing and mining resources, and a population of over 4,000,000 souls; or, if you choose to make a comparison nearer to home, our neighbor across the Sierras, who pays her public servants no more than we do, and in some cases a great deal less—with four or five times as much labor to perform and responsibility to take. From the present outlook there must be a general reduction of salaries and fees in office along the whole line, both in State and counties, as the receipts from our mines will unquestionably be very meager, so far as we know at present, for the next two or three years. Hence the people must take hold of this matter in earnest, and elect a Legislature that will be willing and capable of handling this question intelligently for the best interests of the State; otherwise we will be financially swamped. Our present Legislature is now composed of seventy-five members, and from thirty-eight to forty attaches, making a total number of 113 to 115 under pay during each session. To this add contingent expenses of both Houses, and you will find that daily expenses aggregate between \$12,000 and \$13,000 per day. Its number should not exceed fifty members, thirty-three in House and seventeen in the Senate.

It is significant that while five or six principal railroads and numberless vessels on the lakes pour ceaseless streams of freight into Chicago from the West only two roads are needed to supplement the Erie Canal in carrying it thence to the seaboard. Shipments of grain by the canal are unprecedentedly large and seem to be steadily increasing. The estimated number of bushels received during the year by all routes shows an increase of one-sixth over the first six months of 1879, and the number received by canal has more than doubled, increasing from 8,000,000 to 19,000,000. The number of tons cleared on all the canals of the State has almost doubled. Total receipts of all kinds of grain by all routes at New York for the first half of the year were 55,584,000 bushels, as against 47,138,289 bushels for the corresponding period of last year. Of the amount received by canal this year 19,522,476 stands against 8,297,452 bushels by canal during the same period of 1879. The tolls on all the canals of the State from the opening of navigation to July 1 have been \$368,704 89, as against \$105,027 35 for the same period of 1879. The tons cleared, 2,079,837 against 1,277,081 in 1879 and the number of miles which boats have moved 3,456,739, against 1,764,524 last year.

The Free Press says all the marriageable young ladies of Bodie, upon being questioned say they are engaged to be married, but upon cross-examination admit that the engagement might be broken off if a better contract could be made.

Hon. E. B. Washburne sails from New York for Europe on Saturday next. His visit is solely for his health. He will return in October.

The keeping and repeated trials of John T. Pritchard for the murder of officer Symons, will cost the people of Storey county not less than \$10,000.

TRUE AS GOSPEL.

Mr. T. S. Harris, of the late Bodie Standard, in his 'aledictory, very sensibly says:

If you desire to see your town prosper the first step to be taken is to support your local papers. A mere subscription to the paper is nominal support. Subscriptions barely pay for the white paper, ink and press work. Give them your advertising and job work; don't beat them down in prices, and when the bills are presented, pay them, and don't consider (as many do) that you are dropping a small piece in the contribution box. Every local notice or advertisement in a good local paper is worth ten times the price paid for it. But few people know of the laborious work performed by an editor and the compositors of a daily paper, and we are sorry to say but few appreciate the favorable notices they receive through its columns from day to day. An editor is seldom ever congratulated for anything good he may say, but when anything is published against the worst cur in the community, the cur, as a general thing, receives the sympathy, while the editor, who knows that it is his duty to write that which shall be the greatest benefit to all, is not infrequently put down as a blackmailer.

NEWS OF THE MORNING.

Another steamboat Collision—Detroit River—fifteen lives lost. "Nobody to blame," we suppose.

Ex-Gov. B. Gratz Brown, who ran for Vice-President with Horace Greeley, announces himself a Democratic candidate for United States Senator.

Gen. Grant had a splendid reception at Leadville. It is estimated that nearly 30,000 people were on the streets. The General excused himself from making a speech on account of hoarseness.

Dr. Tanner began his twenty-sixth day at noon yesterday. He is in better spirits and condition, and is indignant at the reports that he is failing. He was never more confident of success. A manager yesterday offered him \$600 a week to continue the fast at his theater.

J. A. Robinson, the business adviser of General Garfield, says that the entire property of the General consists of a house in Washington and his farm at Mentor, with its improvements and stock. The Washington house cost him \$11,000. For the farm (Lawnfield) he paid \$12,000, and he has expended about \$4,500 in improvements and \$1,500 in stock. This brings the total value of his property up to \$29,000. From this must be deducted debts amounting to \$5,000, leaving his actual possessions about \$24,000.

The steamer Newbern arrived in San Francisco yesterday morning from Mazatlan, having on board the mate and a portion of the crew of the Matilda, from Esquimalt to Callao, abandoned at sea June 24th. Captain Jones, his wife and a portion of the crew took one boat, the mate and the remainder of the ship's company the other, and steered for Clarion Island, 360 miles distant, which they reached on July 2d, but finding no water there made for Socorro Island, distant 216 miles. During a cyclone the boats parted company, since which nothing has been heard of the Captain's boat. Those in the mate's boat were compelled to throw overboard provisions, water, clothing, etc., during the storm, and passing Socorro Island after great suffering, reached Mazatlan on July 16th.

Belcher Pleased at Last.

The Gold Hill News of the 23d says: It was reported last evening on the streets of Gold Hill and Virginia, and generally believed, that in the drill hole sent east from the face of the south drift on the 2760 level of Belcher some good assays had been obtained. This is officially denied to-day. The fact is, the Belcher is too well pleased with the hard porphyry cut by the drill to want people to deceive themselves as to the exact facts in the case. They have had too much soft vein matter, filled with water, carrying just enough gold and silver to be good for nothing. It shows lack of concentration of the vein—too much spreading out and general diffusion. If the entire amount of precious metals in the lode anywhere from end to end as now shown up on lower levels could be collected into a width of fifty feet of vein instead of being scattered through 500 feet, it would make that fifty rich milling ore. Belcher is pleased with the prospect of finding a concentration of the vein when the hard porphyry is passed through; pleased that the eternal floods of the lower regions are not pouring in upon them.

What Supt. Crawford Says.

The Carson Times of the 23d says. A representative of this paper called on Mr. Crawford in relation to an article which appeared in last evening's Virginia Chronicle, and inquired of him if he desired to make any statement. Mr. Crawford replied: "No, I have no statement to make in reply to the article, only: that if a depositor has grievances of any kind with the Mint he should call my attention to the facts, and if I fail to explain matters to his satisfaction he can lay his grievances before the Director of the Mint. No complaints from depositors have reached me which have not been satisfactorily settled, this being part of the duties of my office. I am at all times ready and willing to listen to any and all complaints when laid before me in an official manner."

TAKE NOTICE.

AT A MEETING OF THE BOARD OF TRUSTEES of the Reno Savings Bank held July 16th, 1880, the following resolutions were adopted:

WHEREAS, It appearing to the Board that the affairs of the Reno Savings Bank are in such a condition that it is imperatively necessary that business of the corporation should be wound up, its assets and securities realized upon and the claims of creditors protected and discharged; and it further appearing, because of impending litigation and attachments and the present state of public feeling, that this Board can better accomplish the end desired and perform the trust to the creditors and shareholders imposed upon it by law, by the employment of a competent person, under the authority of this Board, to undertake the collection and distribution of the assets of the corporation; and

WHEREAS, It is the desire and intention of the Board to behalf of said corporation to deal justly and honorably with all parties in interest, so far as it may do so consistently with the law, defer to the wishes of the creditors of the Bank and an enlightened public sentiment; therefore,

Resolved, That L. C. Batchelder be and he is hereby removed as Cashier and Clerk, and that D. B. Boyd, of Reno, Nevada, be and he is hereby appointed and employed as Cashier and Clerk, with full powers following, that is to say: 1st. To investigate, once the books and affairs of the Bank, with the aid any and all of the creditors may be willing to afford, and as soon as possible report of the exact condition of the Bank's affairs.

2d. To examine into and report upon with all convenient dispatch, the condition and whereabouts of all securities belonging to the Bank, with statement of the amounts thereof, by whom held and for what purpose, together with his opinion concerning the steps necessary to be taken in order to promptly make the same available to the creditors.

3d. To inquire into and report fully relative to the existing liabilities of the Bank, with a complete list of the creditors thereof, which list shall exhibit the names and residence of, together with amounts due such creditors.

Resolved further, That the said Boyd shall be entitled to and shall receive the sum of \$5—per month for his services, and that his appointment shall date and take effect from the time of executing and delivering to the Board a bond with sufficient surety, in the sum of \$100,000 and with conditions for the faithful performance of his duties and trust, to all parties in interest.

Resolved, That so soon as a statement can be made by the Cashier, the attorney for the Bank be directed to prepare a circular letter showing the exact condition of affairs to be addressed to each of the creditors.

Resolved further, That the Board of Directors do respectfully invite all creditors to suspend hostile criticism and opinion in relation to the failure of the institution until a satisfactory understanding as to the exact condition of the Bank's finances can be arrived at. In the meantime the pledge is hereby given that the public shall be fully and promptly advised from time to time of the state of affairs, and the assets of the Bank faithfully applied to the payment of the claims against it.

Turn-Verein Reunion.

A grand reunion of the Virginia, Carson and Reno Turn-Vereins will be held at Turner Hall, Virginia City, next Sunday evening, on which occasion the distribution of prizes of the late picnic at Carson will take place. The distribution of prizes will be concluded with a grand ball. Tickets (admitting gentleman and ladies) \$1.

Alice the 11 year old daughter of James Nugent, of Glendale, died of diphtheria yesterday morning. Her little brother is very weak, but considered out of danger. The funeral of little Alice will take place this afternoon at 2 P. M.

One of the "circumstances" of today's picnic is a party of about a dozen young ladies, who have bought their own tickets, fixed up their own lunch, and propose to ignore even the existence of all young men. Is this a leap year privilege?

The bodies of the two drowned in Pyramid Lake last Saturday have not been recovered. A sharp lookout is still kept for them, and should they come to the top they will doubtless be seen and recovered.

A fine pair of bracelets.—A very fine pair of 18-carat gold chain bracelets, really worth \$175, will be sold for \$85, at Uncle Harris', 221 Kearny street, between Bush and Sutter, San Francisco.

The Great Chicago Trotting Match.

—St. Julien the Winner.

CHICAGO, July 22.—Twenty thousand people witnessed the great race between St. Julien, Hopeful and Darby for a purse of \$2,500. The first heat was won by St. Julien; Darby second; Hopeful third. Time, 2:17 1/4.

The second heat was won by St. Julien; Darby second; Hopeful third. Time 2:18 1/4.

The third heat and race were won by St. Julien; Darby second; Hopeful third. Time, 2:16 1/4.

This was the greatest day of the Jockey Club meeting, and, although the time made in the free-for-all was not as had been expected, the vast crowd in attendance had the gratification of seeing St. Julien and two other very fast horses. The ease with which he won was so apparent as to convince the most casual observer that he had extra links which could be loosened and which would permit him to lower the record of 2:12 1/4, which he himself has made. Hickok is so confident of his powers that he has offered for a remunerative purse to put him against any trotter or pacer on the turf, and it is not unlikely that a race between this swift-footed trotter and some of the lightning pacers now here will be arranged before the meetings ends. In fact, such negotiations are now in progress. It is stated that St. Julien has not broken since last September but once while in practice, and then on account of the muddy track. Mr. Hickok claims to have driven him over the Chicago track in practice to a lower record than was ever made by any other horse. The crowds cheered lustily when St. Julien and the rest came on the track. The \$2,500 purse was about the only money that was invested in the race. The pool seller was an unknown factor in it. The question was not what horse would win, but how fast time the Californian would make; and so, when the race was called, and Darby started with a slight lead in the first heat, there was general surprise. It did not last long, however, for before the draw gate was reached the coaster had placed himself in the front. Just here Hopeful made the first of a series of bad breaks, which proved disastrous to him in every heat. This break put him far back, and Darby footed it just behind St. Julien until the backstretch was reached, when he got at even, and in this position they came around the upper turn. Just then there arose a shout, "Look at Hopeful come! see him!" and for a moment all eyes were on that horse of encouraging name, who with a tremendous burst of speed, shot his little white legs forward toward the leaders, overthrowing them in the process. He could not last, and half-way down the homestretch left his feet, and the heat was gone from him. St. Julien coming in first, Darby second by a half length, Hopeful third. Time, 2:17 1/4.

When the second heat was called faster time was expected. The horses got away at the third trial St. Julien and Hopeful going very fast and taking the lead. At the first turn Hopeful made his customary break, which was atrociously out of place just here, and when he regained his feet, he was some distance behind. The leaders still went neck and neck at the short-dance stand, but Darby right here lost his feet and St. Julien trotted in an easy winner, Darby barely saving the second place. Time, 2:18 1/4.

On the third heat the intelligent animals, under the guidance of their skillful reinmen got a good start on the second attempt. Hopeful and St. Julien out-footed Darby to the turn, and with his now chronic break, Hopeful allowed Darby to come up—when they came up to St. Julien with a rush, and the three swept down the backstretch in that position, Darby passing the little gray and making play for the leader. Hickok, however, was on watch and called gently on the bay gelding, who responded freely with the long sweeping stride which has so often won, and he soon placed a commanding lead between himself and the others, and, with a cheerful and contented "Come on boys!" from Hickok, St. Julien crossed the string, winner of the heat and race, Darby second. Time, 2:16 1/4.

Nevada & Oregon Railroad.

The Carson Times of last evening has the annexed in regard to the above road:

John T. Davis, the President of the proposed narrow-gauge line, states that within one year the road will be far beyond Susanville, stretching its iron fingers among the valleys of Southern Oregon to bear their produce to market. The road is run from a point at or near Anrora, Nev., to a point at or near the boundary line of Nevada and Oregon, where said dividing line intersects the western shore of Goose lake. Its route will be through Esmeralda, Douglas, Ormsby, Washoe and Roop counties in Nevada, and thence through Sierra, Lassen and Modoc counties, California, to the aforesaid intersection. John T. Davis is President and S. M. Holmes Treasurer. Its term of existence is to be fifty years; length, 300 miles; capital stock, \$6,000,000, made up of 60,000 shares of the par value of \$100 each. Its present Board of Directors is composed of John T. Davis, S. M. Holmes, Geo. L. Woods, Jas. McMeekin, Tremor Coffin, J. C. McTarnahan and A. C. Ellis. The road, if built, will be of especially great benefit to the rich farming country in Lassen and Modoc counties lying north of Reno, and incidentally to the entire State.

TREASURY DEPARTMENT,
OFFICE OF COMPTROLLER OF CURRENCY,
WASHINGTON, May 26, 1880.

Whereas, by satisfactory evidence being presented to the undersigned, it has been made to appear that "The First National Bank of Reno," in the town of Reno, in the county of Washoe and State of Nevada, has complied with all the provisions of the Revised Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of banking.

Now, Therefore I, John Jay Knox, Comptroller of the Currency, do hereby certify that "The First National Bank of Reno," in the town of Reno, in the County of Washoe and State of Nevada, is authorized to commence the business of banking, as provided in Section Fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

In testimony whereof I have set my hand and Seal of office, this 26th day of May, 1880.
JNO. JAY KNOX,
Comptroller of the Currency.

Brown's Household Panacea.

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic acute, than any other pain alleviator, and it warranted double the strength of any similar preparation.

It cures pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache and all aches, and is the Great Reliever of Pain. Brown's Household Panacea should be in every family. A teaspoonful of the Panacea in a tumbler of hot water, sweetened if preferred, taken at bedtime, will break up a cold. 25 cts. a bottle.

Much Sickness.

Undoubtedly with children, attributed to other causes, is occasioned by Worms. BROWN'S VERMIFUGE COMBINATION, or Worm Lozengers, although effective in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box.

Secretary on or before the first day of August,
1880. Entries for the purses must be made for
Monday's races, on the Saturday preceding; for
Wednesday's races, on Monday; and for Friday's
races, on Wednesday at the regular time for
claiming entries as designated by the rules.
Those who have nominations in stakes must
name to the Secretary in writing, claiming the
purses, the day before the race, at 6 p. m.
Horses entered in stakes can only be drawn by
the consent of the Judges.
The rules of the Pacific Blood Horse Associa-
tion will govern running races.
All horses entering for State purses must be
owned and kept in Nevada and California east
of the Sierra Nevada, for six months prior to
day of race.
Entries to all trotting purses will close August
16th, with the Secretary.
Five or more to enter and three or more to
start in all races for purses.
National Trotting Association rules to govern
claiming races. Pacific Coast Blood Horse Asso-
ciation rules to govern running races, except as
above.
Each day's races will commence promptly at

NATIONAL
REPUBLICAN PLATFORM.
THE FOLLOWING IS THE PLATFORM
of the National Republican Party adopted by
the Chicago Convention:
Republican rule has restored upon a solid
basis payment in coin for all national debt
and has given us a currency absolutely
good and legal, and equal in every part of our
extended country. It has lifted the credit of the
nation from the point where six per cent.
bonds sold at 80, to that where four per cent.
bonds are eagerly sought at a premium. Under
its administration railways have increased from
31,000 miles in 1860 to more than 82,000 miles in
1879. Our foreign trade has increased from
\$100,000,000 to \$1,150,000,000 in the same time,
and our exports, which were \$300,000,000 less
than our imports in 1879. Without resorting to
loans, it has, since the war closed, defrayed the
ordinary expenses of Government, besides the
accruing interest on the public debt, and has
buried annually more than \$300,000,000 for
soldiers' pension. It has paid \$800,000,000 of
the public debt, and by refunding the balance
at lower rates has reduced the annual interest
charge from nearly \$161,000,000 to less than
\$80,000,000. All the industries of the country
have revived; labor is in demand; wages have
increased, and throughout the entire country
there is evidence of a coming prosperity greater
than we have ever enjoyed. Upon this record
the people are entitled to the continued con-
fidence and support of the people, and this
Convention submits for their approval the follow-
ing statements of the principle and purpose
which will continue to guide and inspire its
efforts:
THE REPUBLICAN POLICY.
First.—We affirm that the work of the last
twenty-one years has been such as to commend
itself to the favor of the nation, and that the
fruits of the costly victories which we have
achieved through incessant conflict should be
cherished. That the peace regained should be
happily restored, should be perpetual, and
that the liberties secured to this generation
should be transmitted undiminished to future
generations. That the order established and the
credit acquired should never be impaired. That
the pensions promised should be paid. That
the debt so much reduced should be extin-
guished by the full payment of every dollar
thereof. That the reviving industries should be
further promoted, and that the commerce
already so great should be steadily encouraged.
A NATION, NOT A CONFEDERACY.
Second.—The Constitution of the United States
is the supreme law, and not a mere contract.
Out of the confederated States it made a sov-
ereign nation. Some powers are denied to the
nation, while others are retained by the states;
but the boundary between the powers delegated
and those reserved is to be determined by Na-
tional and not by State tribunals.
POPULAR EDUCATION.
Third.—The work of popular education is one
of the most important of the National Govern-
ment to aid that work to the extent of its constitutional ability.
The intelligence of the nation is but the ag-
gregate of the intelligence in the several States,
and the duty of the nation must be guided, not by
the genius of any one State, but by the average
genius of all.
PROPOSED CONSTITUTIONAL AMENDMENT.
Fourth.—The Constitution wisely forbids Con-
gress to make any law respecting an establish-
ment of religion, but it is idle to hope that the
nation can be protected against the influence of
sectarianism, while each State is exposed to its
particular domination. We therefore recom-
mend that the Constitution be so amended as to
lay some prohibitions upon the legislature of
each State, and to forbid the appropriation of
the public funds to the support of sectarian
schools.
DUTIES OF THE DAY.
Fifth.—We reaffirm the belief avowed in 1876,
that the duties devolved for the purpose of re-
venue should so discriminate as to be a burden
on the few, and not a burden on the many. That
the national revenue should be made to any railroad or other
corporation. That slavery having perished in
the States, its twin barbarity, polygamy, must
die in the Territories. That everywhere the
people should be secured to a citizen of American birth
must be secured to citizens by American adop-
tion. That it is the duty of Congress to develop
and improve our watercourses and harbors, but
we insist that no other subsidies to private en-
terprises and corporations must cease. That the ob-
ligations to the men who preserved its integrity
in the day of battle are undiminished by the
lapse of fifteen years since their final victory.
Their perpetual honor is and shall be the pride
of the nation, and the sacred duty of the
American people.
THE CHINESE PLANK.
Sixth.—Since the authority to regulate immi-
gration and intercourse between the United
States and foreign nations rests with the Congress
of the United States, and its treaty-making power,
that the republicanism party, regarding the
unrestricted immigration of Chinese as an evil
of great magnitude, invokes the exercise of the
power to restrain and limit that immigration by
the enactment of such just, humane and reason-
able provisions as will produce that result.
COMMEMORATION OF HAYES.
Seventh.—That the purity and patriotism which
characterized the earlier career of Rutherford B.
Hayes in peace and war, and which guided the
thought of his immediate predecessor to him
for a Presidential candidate, have continued to
inspire him in his career as Chief Executive, and
his history will accord to his administration the
honors which are due to an efficient, just and
courageous fulfillment of the public business,
and will honor his interposition between the
people and proposed partisan law.
ABANDONMENT OF THE DEMOCRACY.
Eighth.—We charge upon a Democracy, the
national sacrifice of patriotism and justice
to a supreme and unstable lust for office and
patronage, that to obtain possession of the Na-
tional and State governments, and the control of
place and position, they have endeavored to
use every method to preserve the purity and con-
science of suffrage; have devised fraudulent
certificates and returns; have labored to unseat
lawfully elected members of Congress, to secure
at all hazards the vote of the majority of the
electors; have tampered with the integrity of
the electoral college; have tampered with the
legislation of the House of Representatives; have
endeavored to occupy by force and fraud places of
trust given to others by the people of Maine;
and rescued by the courage and action of Maine's
people, the vote of the majority of the electors;
have tampered with the integrity of the electoral
college; have tampered with the legislation of the
House of Representatives; have endeavored to
